

THE CHARLEROI MAIL

VOL. XVIII NO. 44

CHARLEROI, WASHINGTON CO., MONDAY, AUGUST 3, 1917

ONE CENT

ACROSS THE CONTINENT IN AN APPERSON TOURING CAR

Glendora, Cal. Family Stops
in Charleroi While on
Way East

HAVE TRAVELED 4,000 MILES

Mr. and Mrs. C. W. Richardson and daughter Myrtle, of Glendora, California, a town 27 miles from Los Angeles, arrived in Charleroi Sunday evening and are guests today with Mrs. S. J. Richardson and daughter Minnie of 401 Lincoln avenue.

Mr. Richardson and his family made the trip from the Pacific coast in an Apperson "Jack Rabbit" car, carrying their own outfit and camping out every night. So far they have covered 4,000 miles, and this mileage will be materially added to, as tomorrow they leave for Gettysburg, Washington and Annapolis, which latter point they will terminate their trip from coast to coast.

They left their home in Glendora on the 16th of June, and expect to return home by the 1st of September. On the way east they encountered but little bad weather losing only two hours on account of rain, while their machine gave them practically no trouble. They visited in the Grand Canyon in Iowa, Mr. Richardson's former home, in Chicago and Ohio, and are spending a short time in Charleroi, before continuing their journey.

Mr. Richardson is a fruit grower, having a ranch of 20 acres on which he has about 2,000 orange and lemon trees, from which he reports a very profitable business. His father was raised in this county, later moving to Iowa, where he married and raised a family and later moving to California.

On the return trip Mr. Richardson and family expect to return by way of the Lincoln highway. He says the roads on the way east were exceptionally good, but few bad places being encountered on the trip.

UNTIL FURTHER NOTICE CONSERVE THE WATER SUPPLY

Owing to boiler trouble the Tri-Cities Water company is experiencing considerable difficulty in maintaining the water supply. We urge upon all our consumers to be as saving as possible with the water until we get in better shape, which we hope will be within the next few days. Request has been made to the borough to use no water for street purposes until the situation is relieved. All mills and other industries are asked to give this grave situation the widest cooperation.

TRI-CITIES WATER COMPANY
411tf

A GARDEN DESERVING OF HONORABLE MENTION

A garden which deserves honorable mention, but which was unintentionally omitted in the list published on Wednesday, is that of Sol Emmer of Crest avenue, and First street. The garden is well kept, and shows great attention on the part of Mr. Emmer. His potato patch is said to be exceptionally fine, with a fine stand of vines which should produce an excellent crop.

GUARD NOW IN U. S. SERVICE

Drafted as Part of the New
National Army on
Sunday

OLD GUARD IS NOW PAST

Company A, Tenth regiment, of Monongahela, together with all other units in the National Guards, was drafted into the United States service on Sunday. No formal ceremonies marked the change of the Guard from State to National control, the step being accomplished by proclamation of the President.

In addition to this drafting into the federal service, all remaining units of the Guard not in service were summoned to duty on the same date, which has now added over 350,000 additional troops to the United States forces. Within a few weeks it is expected that all of the Guardsmen will be mobilized in southern cantonments, at which time about 100,000 men will be added to these forces in order to bring them up to war strength.

It is expected that the designation of Guardsmen will now be dropped, and a new designation given them. Pennsylvania troops will likely be the Twenty-eighth Division, with the numbers of all regiments being changed, although it is permissible to use the old designation in parenthesis. What number will be assigned to the Tenth Regiment has not been announced, and may not be until the men reach their new camp at Augusta, Ga. It will likely be in the one hundred and thirties.

In the south it is said that all regiments will be gone over thoroughly and inefficient officers as well as men eliminated, because the government realizes the strenuous duty required in trench warfare.

While no intimation has come, Company A members anticipate being on the way south some time next week.

REGISTRANTS ARE NOW BEING EXAMINED AT DONORA FOR DUTY

The real work of selecting men by draft to enter the National Army from the Fifth district of Washington county began this morning at 8 o'clock, at Donora, in charge of the exemption board, John O. Watson, of North Charleroi; President; Gilbert E. Koedel, of Donora, secretary, and Dr. C. B. Wood of Monongahela, examining surgeon. Dr. Wood is being assisted in his work by Dr. Sprowls, of Donora and Dr. Hunter of Charleroi. The examinations began at 8 o'clock this morning, and it is the purpose of the physicians to examine at least 120 men each day. At this rate it will require at least eight days to call the quota of men necessary in order to secure the number of selectives from this district. If the 960 men called do not furnish the desired quota, the board will continue to call registrants until the number required is obtained. Those called for next Saturday is as follows:

601	4732	John Ricsh	701 R. R. St., Monongahela, Pa.
602	2532	Steve Mielke	449 7th St., Donora, Pa.
603	1007	Edward Apanosencicz	907 Fallowfield Ave., Charleroi, Pa.
604	1764	Charles Sakos	123 Kenric Ave., Donora, Pa.
605	391	Joseph Howard Cottle	405 Fallowfield Ave., Charleroi, Pa.
606	1366	William Milton Cozad	712 7th St., Charleroi, Pa.
607	4627	Charles Albert Hayward	311 6th St., Monongahela, Pa.
608	4507	Hayward Hobson	300 3rd St., Monongahela, Pa.
609	3609	John Kornis	123 3rd St., Donora, Pa.
610	2396	Constantino DiVittantonio	413 4th St., Donora, Pa.
611	353	Robert J. Reed	422 Fallowfield Ave., Charleroi, Pa.
612	970	James Newton Kibler	308 9th St., Charleroi, Pa.
613	4869	Thomas Sweeney	Maderia Ave., New Eagle, Pa.

664	3252	Mike James	1141 Meldon Ave., Donora, Pa.

Continued On Page 2.

MALE COOKS ARE WANTED TO ACT AS INSTRUCTORS

WHEAT HARVEST VARIES IN DIFFERENT YEARS

John S. Patton of near Fayette City, who has kept a record of wheat harvests for the past fifty or more years, says that wheat harvest varies in that section, the recorded dates showing that in some years it began as early as June 9, while other years it was as late as July 11. This year is possibly the latest it has even been in this section of Pennsylvania.

Men Are to Report at Annapolis on the 15th of August for Duty

TEN FROM THIS COUNTY

While the call to arms is going out in all sections of the country and men in all walks of life are responding to the appeal to uphold the honor of the nation in the world struggle against Germany, there is opportunity given to men who are unable to bear arms in defense of the flag to volunteer as cooks, or rather teachers of cooks at the cantonment at Annapolis.

In a short time more than 30,000 men will be at this cantonment, coming from this county and from the state at large, for training as part of the new army. These men must be fed and as they are all more or less not familiar with cooking the government is anxious to secure the best teachers of this art that can be obtained.

Men who will go to Annapolis for this instruction will be expected to spend six weeks there, beginning August 15. Instructors in Class "A" will receive \$125 per month for their services, and those in class "E" will receive \$90 per month.

that if men qualified to do this work go to Annapolis to receive instruction in cooking they will have the satisfaction of knowing that while they have not been able to personally serve in the trenches they will be represented at the front by 30,000 men.

who will be fit for fighting because they are being fed by the cooks whom the instructors taught at Annapolis.

Washington county will be permitted to furnish 10 instructors, and men who desire to enter this branch of the service should apply at once to W. R. Gaut, Hotel Walfred, Charleroi.

TEACHERS ARE BEING NOTIFIED

Must Register of Tri-City
Institute on Monday,
27th Inst.

ONLY ONE EVENING SESSION

Prof. R. G. Dean, secretary of the tri-city teachers' institute, is mailing notices to all teachers in the district, calling their attention to the institute which is to be held in Monongahela from the 27th to the 31st of August inclusive. The sessions will convene in the lecture room of the Presbyterian church at 1:30 p. m., Monday, August 27. Teachers are to enroll in the offices of their respective superintendents Monday, August 27, at 10 a. m., or at the church at one p. m. Fee for enrollment, \$1.00.

On Tuesday, Wednesday and Thursday mornings, the high school teachers will meet in conference and each teacher will be expected to have a part. At the same time Miss Lynch will conduct conferences for grade teachers in English, arithmetic and geography.

To receive pay for Tuesday and avoid forfeit, teachers will be required to attend the session Tuesday evening August 28. This session by law is a part of the institute. At this session Dr. Bryan of Colgate University will deliver a lecture.

WILL ATTEND MEETING TO DISCUSS LIBERTY LOAN

Kerfoot W. Daly, of the Bank of Charleroi, who is chairman of the Liberty Loan committee of Washington county will leave on Wednesday morning for Cleveland, to attend a meeting of all county chairmen of the Pittsburgh district to discuss the new liberty loan of \$3,000,000,000 which it is expected the government will ask for possibly late in October or early in November.

Notice.

I wish to announce that I will be a candidate for nomination for Tax Collector of North Charleroi Borough subject to Republican rules at the primaries to be held September 10.

C. A. Fortney
M&T

REGISTRANTS ARE BEING EXAMINED

The exemption board of the Fifth District got under way this morning at 9 o'clock at the headquarters in Donora, one hour later than the contemplated schedule. By noon another hour had been lost, at which time twenty-seven registrants had been examined. Of these 27, two were found to be physically disqualified, while only three had filed claims for exemption. This however, is not to be taken as a criterion, as it is said many of these who were examined this morning did not know they had to file claims for exemption at the time they were examined physically. It is expected the number who will ask exemption on Tuesday will be largely increased. The Board will give out each evening, after the scheduled number of registrants have been examined a report of that day's work, showing the number examined, number of aliens, number physically disqualified, the number asking exemption and the number accepted.

Entered in the Post Office at Charle-
roi, Pa., as Second Class Matter.

The British have reluctantly de-
cided on air raid reprisals, just as
they reluctantly adopted the use of
poisonous gases. They consider
themselves compelled to fight the de-
vil with his own art.

The contempt of the German war
lords for the United States seems to
be colossal, but it will soon come
down a peg or two and eventually it
will be merged into a grudging re-
spect with perhaps even a basis of
wholesome fear.

The reports show that thousands
of drafted men have taken advantage
of the opportunity given them pend-
ing their official notification to enlist
voluntarily in the regular army or
navy and thus choose for themselves
their line of service.

Some of those child-like Russian
soldiers who stopped to debate whether
to obey orders and were captured
by the Germans in the very act of
wagging their tongues will now have
opportunity to repent at leisure and
on short rations.

The percentage of aviators lost is
smaller than that of men fighting in
the trenches. This, in addition to the
thrilling adventure and the greater
opportunity for personal distinction,
bring in rapidly the recruits
great aviation fleet.

The British having captured a
sunk German vessels sailing
recently from Rotterdam to Hamburg
the enraged German government de-
nounces this "brutal assault on de-
fenceless merchantmen and even ex-
pects poor Holland to collect com-
pensation, although its submarines
destroy more "defenseless" British
merchantmen than that every week.
This is quite characteristic of German
thought, which permits world-con-
quering and all manner of "frightful-
ness" for Germans and nothing for
other folk.

STEEL PRODUCTS WIN FROM COLLEGIANS

In one of the hardest fought games
of the season, the Pittsburgh Steel
Products team defeated Dick Guy's
Collegians at the local Park by a
score of 1 to 0. The winning score
was not made until the ninth inning
when the local team managed to work
a run across the plate and ended the
game. Both pitchers did good work,
although Rapp pitched the tighter
ball allowing only three hits, while
the locals got 2 off Murray. Splendid
fielding on the part of the visitors
kept the score down, Penny, in left
field for the visitors, being a bright
and shunning star. In one instance
he put a crump in a ball, labeled
"homer," which Carlson had put his
weight against, holding it to a double.
The Pittsburgh Steel team defeat-
ed the Monongahela team at the Page
park Saturday afternoon by a score
of 3 to 2, in ten innings. The result
of this game makes it certain that the
Steel Products team will fly the
championship gonfalon for the com-
ing year, as the locals have but one
more game to win to make it abso-
lutely certain, while the best Monon-
gahela could do now even if it
would win all its remaining games,
would be to lose while the Products
would have to lose all of its remain-
ing games. This is not likely to hap-
pen.

Registrants Being Examined

DONORA METHODISTS TO PICNIC AT OAKLAND

The Methodist Sunday schools of
Donora and Allenport will picnic at
Oakland Park on Thursday next.
The members of the Donora school
will come to Charleroi on the 8:49
train and take street cars from this
place to the park. The Allenport
school will also come this way, by
trolley and make the transfer to
Westside cars. A splendid program has
been arranged for the day.

ARE SENT TO JAIL ON A VERY SERIOUS CHARGE

Kenton McCuen of Donora and
Frank Feluso, of Webster, were given
a hearing before Mayor McKiever
of Monongahela on Saturday last
charged with pundering. After hear-
ing some of the evidence against the
accused, they were held for court and
were taken to the Washington county
jail today. Two girls, Sarah Miller
aged 18 of Pricedale, and Mary Lis-
ko, aged 17 were taken with them to
answer to serious charges. Feluso is
said to be wanted for seriously cut-
ting Alex Rulosky, last year at Don-
ora.

W. M. McCORRY DIES AT HOME OF HIS SISTER

W. E. McCorry, aged 77 years, a
former resident of Fayette City, died
at the home of his sister, Mrs. Allen
Mansfield, Chazaleo, Sunday evening,
August 5 at 10:15 o'clock. The de-
ceased had been a member of the Fay-
ette City lodge of Odd Fellows, No.
511, for fifty years. Funeral services
will be held Tuesday at 3 p. m.

WILL RAISE AND REPAIR STEAMER CHUSADER

The steamer Crusader, owned by
the Pittsburgh Coal company and
which was formerly used in the coal
towing trade in the pools, is to be
raised and repaired at the Pitts-
burgh docks. The Crusader sank recently
at Cincinnati after striking a bridge
pier. Before being sent south the
boat had been used exclusively in the
Monongahela pools. She was built
from the machinery of the seamer
"Little Dick."

IS ABLE TO BE OUT AFTER A SEVER FALL

J. E. Edwards, Sr., who fell a dis-
tance of eighteen feet to a concrete
floor, at the plant of the Pittsburgh
Products company last week
was able to be out on Friday, look-
ing as "chipper" as usual. He feels
somewhat stiff after the hard bumps
he received, but he says they are
only temporary and that within a
few days he will be as good as new.

WATSON PAID HIS EXPENSE ACCOUNT

County Controller T. J. Underwood
has decided to pay the expense ac-
count of James O. Watson, former in-
specter of roads for the eastern dis-
trict of Washington county, and who
resigned the position last week. On
Saturday Controller Underwood re-
ceived a letter from Mr. Watson
asking that the warrant for the ex-
pense account be sent to him. To
this the Controller replied putting his
O. K. on the bill, stating in a letter
to Mr. Watson that the county was
justified in paying his expense on ac-
count of Mr. Watson acting as the
driver on the county truck.

MYSTERIOUS MURDER TAKES PLACE IN DONORA

Mike Russo, aged 31 years, of
Thompson avenue, near Seventin of
Donora was found Sunday night at
9 o'clock on Thirteenth street, in that
town, killed by a bullet in his neck.
Whether his death was by the acciden-
tal discharge of a gun or whether it
was murder, the Donora police have
been unable to determine.

Be One of the Lucky Women to Get Them

Today the women who attended the opening
of this sale last Saturday are using their
Hoosier Specials, and every one is proud and
delighted with it!

We knew that our allotment of Hoosiers would
go rapidly, but it was astonishing for so many
women to take them the very first day.

The maker has just sent us this word:

"You cannot get another shipment of Hoosier
Specials at the reduced price. Your sale must
stop when your stock is sold."

That means as soon as 20 more women order
the Hoosier, your chance to get one at a saving
of \$5 cash will positively be gone.

Make up your mind right now to be one of
those lucky women.

40 Labor-Saving Inventions

If you think that the Hoosier means merely
more shelf-room, you have no conception of
what this cabinet is and does!

It has places for 400 articles, handily arrang-
ed; within arm's reach. And it also has 40
labor-saving, time-saving inventions.

Another cabinet as complete as this does not
exist. Its leading features are protected by
patents.

Its beauty and lifetime standard of construc-
tion are unrivaled. And its price is fixed at the
factory to outsell any cabinet made.

Pay \$1 and Save \$5

The Hoosier combines a big work-table, cup-
board and pantry all in one.

Only by using it in your kitchen can you real-
ize why more than a million women praise the
Hoosier and tell their friends to get it.

So we propose this plan to let you try it. Pay
only \$1 when the cabinet is delivered, then \$1
weekly for a few weeks more.

If you're not delighted we'll refund all money.

We take the risk. You save \$5. What do
you say?

Selling Resumes at 8 A. M.

By the time you read this offer, the number
of cabinets remaining will likely be less than
as we write.

Women are ordering right along. So please
don't blame this store if you come too late.

When these are gone there will be no more
like them except at \$5 higher. Resolve to
come early—be one of the lucky women.

W. B. Pfleghardt

Fallowfield Avenue, Charleroi, Pa.

REMNANT SALE

—and—

Summer Clearance Thursday & Friday Aug. 9th & 10th, 1917

And Beginning of Our Great Summer Clearance

The Greatest and Most Interesting Sale is here—Remnant Days—Thursday and Friday, when every remnant, short ends, odds and ends of merchandise in every department is put on sale at remnant prices. Every money-saving woman in the Monongahela valley and surrounding country knows this half-yearly Remnant Sale. They will be here Thursday morning at 8 o'clock—not sooner. All the short pieces and odds and ends are carefully measured, ticketed and Remnant Prices marked in red ink. The red ink price does the business.

Our Summer Clearance Starts on Remnant Day

Lasts until September 1st, or until the goods are sold out. This is our first clearance of the year. The extraordinary conditions have advanced all raw materials to unknown prices and they have not reached the limit. We study the merchandise markets and with all our experience we tell everyone to buy all their needs for the winter. Buy now. Don't overlook—for every item is a bargain. Come to the Clearance Sale any day—but come remnant day sure.

Important Sale of Ready-to-Wear Garments

Drastic cuts on Coats, Suits, Skirts, Dresses. Goods bought today are really double value. All our newest spring and summer suits, in light shades, navy and black, also silk suits, at half price. The House of No Dust

Dust and dirt have no more place in the well-kept house than old fashioned plumbing or heating methods.

Let your house be known as "The House of No Dust."

One of the up-to-date vacuum cleaners from our big stock will do it—

An electric vacuum cleaner is easy to use—never gets out of order and cleans thoroughly and quickly with least exertion on your part,

Ask your neighbor how she likes her vacuum cleaner and she'll tell you that she can clean floors, rugs, carpets, furniture more economically, and with less labor than in any other way.

We have the most serviceable, tested makes constantly in stock. Why not arrange for trial—at our expense?

Short and Long Twilight

As twilight is caused by the refraction of the atmosphere, without which we should be instantly in darkness at sunset, the length of the twilight varies with the position of the earth. When the sun has sunk, light rays from the sun's surface are refracted by the atmosphere and the light can be seen for some time after the sun has set. The path of the sun at the equator is so nearly vertical that its disappearance is proportionately rapid.

The shortest twilight at the equator is one hour and two minutes at the equinoxes in March and September. The longest is one hour and thirteen minutes at the solstices in June and December.

In London from May 22 to July 21 it is twilight all through the night. In other parts of the world, such as Norway, where the sun never sets, the twilight is continuous. The twilight of day and twilight is unknown in London Telegraph.

Picric Acid For Burns

A well tried remedy for burns, used much before the advent of the modern treatment, says the *Medical Press*, is picric acid, to be employed in the following manner: Picric acid, two grains, alcohol, 2½ ounces; distilled water, a quart. The burn is first cleansed of dirt and charred clothing, then strips of sterilized gauze soaked in the above solution are applied to the part.

An absorbent cotton pad is placed over the dressing and lightly bandaged to place. The dressing dries rapidly and may be left in position for several days, after which it is again moistened with the solution to soften it, removed, and a fresh dressing is applied and left on for a week. All blisters should be pricked.

The treatment causes pain at first, which later disappears, and the wound heals in a smooth cicatrix.

Worry Is Imagination

We worry because we are able through a power called self consciousness to place ourselves through our minds for the time being either back somewhere in the past without carrying our physical bodies with us, for if we could take our bodies with us we would be in the present again, and then worry is impossible; or, we use our imagination and project the future entirely apart from our bodies, for we cannot project our bodies into the future, and if we could we would again be in the present, says the "Book of Wonders." We worry over going to have an operation performed, which may or may not be dangerous, but quite necessary. We may still think we worry when the operation begins, but as soon as that occurs the time becomes the present, and though we may fear, we cannot worry in the present.

His Logic

"We could get along very well without lawyers," proclaimed the radical. "I consider lawyers nothing but parasites on the body politic."

The attorney sneered. "Your theory on this subject is like your theories on all other subjects," he said. "You presuppose a model state of society. In a model state we should need no lawyers, but at present society is imperfect. Therefore, lawyers are a necessity."

"I expected you to say that," said the radical. "Will you stick to it that a lawyer is a necessity and accept all the consequences of that statement?"

"Yes."

"Out of your own mouth I condemn you. Necessity knows no law!"—Cleveland Plain Dealer.

A Test Required

"Johnny, it was very wrong for you and the boy next door to fight."

"We couldn't help it, father."

"Could you not have settled your differences by a peaceful discussion of the matter, calling in the assistance of unprejudiced opinion, if need be?"

"No, father. He was sure he could whip me and I was sure I could whip him, and there was only one way to find out."—Washington Star.

Truth

We are born to inquire after truth. It belongs to a greater power to possess it. It is not, as Democritus said, hid in the bottom of the deeps, but rather elevated to an infinite height in the divine knowledge.—Michael de Montaigne.

Close and Near

Promoter—Haven't you any close friends who have money? Inventor—I have one, but he is too close to give up any.

PRACTICAL HEALTH HINT.

Children's Headaches. "Children," says a noted English physician, "have no business with headaches, and if these occur frequently at any school there is something evidently wrong there. The headache girl is not unlikely to grow up an invalid woman, and the unstable mental state may develop into epilepsy." Few parents are fully alive to the importance of recognizing the signs of nervous breakdown in children. During the school period and of taking steps to prevent infirmities through overstudy and the anxiety that frequently accompanies study, especially during the high school period. It is better to consult a physician before the nervous system is so far gone that it is necessary to discontinue the school work. It is more important that athletic exercises and games that will relieve the mental strain of severe study be provided for girls than for boys in the high school period.

Training Children

Do these things for your children, says Leo Tolstoy, if you would properly train them:

Let them do all they can for themselves—carry their own things, wash up, arrange their own room, clean their shoes and clothes, etc. Do these things and you will have trained them to be self-reliant and to be of use to themselves and to others.

Let them learn the value of a thing by doing it. If they are to be of use to the world, they must learn to work and to self-improvement.

If you can add work on the land, if it be in a kitchen garden, that will be well. Believe me, that without that condition there is no possibility of a moral education, a Christian education or a good education of the fact that men are not naturally divided into the classes of masters and slaves, but that they are all brothers and equals.

Sand Dunes in Gascony

One of the most interesting and remarkable of the many regions for the observation of sand dunes is between Bordeaux and Bayonne, in Gascony. The sea here throws every year upon the beach, along a line of 100 miles in length, some 5,000,000 cubic yards of sand. The prevailing westerly winds continue picking up the surface particles from the westward slope, whirl them over to the inward slope, where they are again deposited, and the entire ridge by this means slowly moves gradually inland. In the course of years there has thus been formed a complex system of dunes, all approximately parallel with the coast and with one another and of all altitudes up to 250 feet. These are marching steadily inward at a rate of from three to six feet a year, whole villages having sometimes been torn down to prevent burial and rebuilt at a distance.

When Ice Covered Europe

During the long tertiary epoch, when opossums disported themselves on the site of Paris and mastodons tramped along the valley of the Thames, the earth was in the throes of mountain making. The Alps, the Himalayas, the Alleghenies, the Andes, attest the power of her activity in those days. At her termination our continents stood greatly higher than they do now, and this aided their glaciation, although it does not fully account for it. But as they became loaded with ice Europe and America gradually and we may venture to say contemporaneously sank. This was inevitable. Owing to the extreme heat and pressure prevailing in its interior the earth is an eminently elastic body. Its surface actually bulges in or out with a very slight increase or decrease of the load upon it.

Swapping Horses

An Indiana man was traveling down the Ohio on a steamer with a mare and two-year-old colt when by a sudden career of the boat all three were tilted into the water. The Hoosier, as he rose puffing and blowing above water, caught hold of the tail of the colt, not having a doubt but that the natural instinct of the animal would carry him safely ashore. The old mare made for the land, but the frightened colt swam lustily down the current with its owner still hanging fast. "Let go of the colt and hang on to the mare," shouted some of his friends. "Booh!" exclaimed the Hoosier, spouting the water from his mouth, "it's mighty fine telling me to let go the colt, but to a man who can't swim this ain't exactly the time for swapping horses."—Ottawa Citizen.

Parallel Stories

When Napoleon was a student at Brienne he happened to be asked by one of the examiners the following question: "Supposing you were in an invested town, threatened with starvation, how would you supply yourself with provisions?" "From the enemy," replied the sublieutenant of artillery. And this answer so pleased the examiners that they passed him without further questioning. Now, Napoleon's answer was by no means original, for one of Savaroff's sergeants obtained promotion from the ranks by giving the very same answer when asked the very same question.

Hot Applications

As a substitute for hot water bags in ordinary ailments, such as toothache, earache and other minor pains, the common flannel bags made in convenient sizes, with drawstrings, fill them with hot sand or salt and they are safer than a cheap rubber bottle, just as efficacious and much handier to use. Keep half a dozen ready. They are of great help in time of aches and pains.

Porpoise and Whale

Whales and porpoises are mammals, like cattle and sheep, and their flesh is "meat," not "fish." In texture and appearance it resembles beef, though the color is darker red, and the flavor is closer to that meat than to any other. It is devoid of all fishy taste.

In the Court

"Now, my good woman, I will take up the subject of your dispute with your husband."

"But you can't take it up, your honor."

"Why can't I, madam?"

"It's the parlor carpet, sir."—Baltimore American.

Death

Death opens the gate of fame and shuts the gate of envy after it: it unloosens the chain of the captive and puts the bondsman's task into another man's hand.—Sterne.

Victory is not left to stand alone. He who practices it will have neighbors.—Cicero.

WIFE CHARGED WITH MURDER OF HUSBAND

Peter Parich, aged 44 years, of Monessen, died Sunday noon in the Memorial hospital, Monongahela, as the result of two gunshot wounds inflicted in the Parich home Saturday afternoon. Mrs. Helen Parich, wife of the dead man is locked up, being charged with the crime.

Some mystery surrounds the crime as the woman claims she left the house at 11:50 on Saturday for a shopping trip down town, leaving the father at home with a three-months old baby in his arms. When she returned about one o'clock, according to her story, she found her husband lying on the bed, with two gunshot wounds in his neck, which had reached his spinal column, and which paralyzed the man from his neck down. He was able to talk, but before being able to give any information, death relieved his sufferings. A coroner's jury was assembled in Monongahela today noon, as the man died in Washington county, but the procedure was turned over to the Westmoreland county authorities for investigation.

YOUNG MAN UNDERGOES A SEVERE OPERATION

Thomas Hazelden of 208 Washington avenue, who was hurt while at work in the mine of the Diamond Coal company, at Brownsville, about five weeks ago, underwent a serious operation at the Charleroi-Monessen hospital on Saturday. Mr. Hazelden was injured on the head, from which an infection began, which later turned into gangrene, the trouble appearing in his right leg. On Saturday it was found necessary to remove this member in order to arrest the spread of the disease, the operation being performed by Dr. Sloan. The patient while rallying splendidly from the operation, will not be out of danger for several days.

PERSONALS

Mrs. John Glasser and daughter Mary Clara left Sunday night for their home in Marion, Indiana, after spending the month of July with relatives in Charleroi.
